

McINTOSH COUNTY REPUBLICAN PARTY

P.O. Box 643, Darien, Georgia 31305

KNOW ALL MEN BY THESE PRESENTS

WHEREAS, recent elections have shown that the Democrat Party uses “ballot submission assistance” programs, where ballot collection is more important to winning than gathering votes through campaigning. The Republican Party must now focus on legal ballot submission assistance to be competitive. The best way to make this work is to identify voters who support the Republic Party long before our current open primary system. A large percentage of voters who do not vote in primaries support the Republican Party in the general election, and we need to identify them.

WHEREAS with open primaries, any person, regardless of their political beliefs, may help choose our nominees. The members of the Republican Party should be able to choose their nominees exclusively, and those who wish to be part of the selection our nominees should be members of the Republican Party.

NOW THEREFORE, IT IS RESOLVED, by majority vote of Members present, we request the current open primaries for the selection of Republican Party candidates be changed to closed primaries where only members of the Republican Party may vote, and petition the State Legislature to amend the election laws to accomplish this request.

IN WITNESS WHEREOF, we have hereunto set our hands and seals on this 11th Day of March, 2023.
